

Answer the following questions based on _____

1) Symbol _____

2) period number _____

3) group number _____

4) number of protons _____

5) number of electrons _____

6) number of neutrons _____

7)Bohr Model

8) number of occupied energy levels _____

9) number of complete energy levels _____

10) number of valence electrons _____

11) Lewis (electron dot) diagram

12) Possible electron configuration of excited state _____
